

HSJ Information

No one understands the NHS better

Database of Local Government

Local authorities play a vital role in ensuring services in their communities are provided in an efficient and cost-effective way to meet local needs. They play an essential role in public health and in integrating care services with the local placed based partnerships. They collaborate closely with the NHS to meet deadlines and improve care for their local communities.

Our Database of Local Government contains contact details for senior decision-makers working in local authorities in the UK, contacts hold a role related to health or social care.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

- Regional Partnership Board

For the most up-to-date counts or to speak to us about our Campaign Packages, please contact your account manager direct or use the contact us form on this site.

Please note: It is common for a healthcare professional to have more than one responsibility. Therefore, there may be fewer named individuals on the database than there are areas of responsibility indicated above. Counts provided will be deduped to provide 'unique' contacts. Number of contacts may vary during our research cycle due to the fast-paced rate of change of organisations changes within UK healthcare. Counts correct at time of publishing December 2025.
