

HSJ Information

No one understands the NHS better

Database of Operating Theatres and Diagnostics

Operating theatres are an integral part of NHS activity using a significant proportion of the total resources of a hospital.

Get a thorough understanding of Operating Theatres and Diagnostics with our comprehensive database. Our product combines relevant HCPs, so you have access to all the people and places involved in operating procedures – from large operating suites in Acute Hospitals to minor surgery clinics in GP Settings. You can get accurate data from both the UK and Republic of Ireland.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

Organisation Types:

- Care Provider
- GP Practice
- Health Board Scotland
- Health Board Scotland Combined Service
- Health Board Scotland Specialist Service
- Independent Hospice
- Independent Sector Treatment Centre
- Islands
- Local Health Board
- Nursing/Care Home
- Private Consultant
- Private Hospital
- Private Hospital HQ
- Republic of Ireland GP
- Republic of Ireland Hospital
- Republic of Ireland Hospital Group
- Shared Services Organisations
- Special Health Authorities
- Trust

The data can be segmented to enable targeting of campaigns by:

- Geography
- Job Responsibility
- Region
- Specialty

- Transplantation
- Upper GI Surgery
- Urology
- Vascular

For the most up-to-date counts or to speak to us about our Campaign Packages, please contact your account manager direct or use the contact us form on this site.

Please note: It is common for a healthcare professional to have more than one responsibility. Therefore, there may be fewer named individuals on the database than there are areas of responsibility indicated above. Counts provided will be deduped to provide 'unique' contacts. Number of contacts may vary during our research cycle due to the fast-paced rate of change of organisations changes within UK healthcare. Counts correct at time of publishing December 2025.
