

# HSJ Information

No one understands the NHS better

## Database of GP Practices

**Our Database of GP Practices provides a comprehensive and accurate view of key stakeholders within GP Practices across UK and Ireland, giving your teams data to precisely target and understand the market.**

All information gathered is meticulously researched and verified by our specialist team, giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

**Data can be segmented to enable targeting of campaigns by:**

- Geography
- GP Federation Links
- Practices that's dispense medicines
- Number of partners/ patient list size
- PCN Membership

**Database Contents: 226,516**

- Walk in Centre

For the most up-to-date counts or to speak to us about our Campaign Packages, please contact your account manager direct or use the contact us form on this site.

**Please note:** It is common for a healthcare professional to have more than one responsibility. Therefore, there may be fewer named individuals on the database than there are areas of responsibility indicated above. Counts provided will be deduped to provide 'unique' contacts. Number of contacts may vary during our research cycle due to the fast-paced rate of change of organisations changes within UK healthcare. Counts correct at time of publishing December 2025.
